PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate specializing in Gaming, Graphics, and AI-based systems. Skilled in Java, C#, Python, SQL, Spring Boot, REST APIs, Git, and Unity 3D. Strong foundation in Data Structures & Algorithms, OOP, and Machine Learning; familiar with AWS/cloud concepts.

TECHNICAL SKILLS

Programming Languages:	Python, Java, C++, C#
Frameworks & Libraries:	Spring Boot, REST APIs
Databases:	SQL (MySQL)
Game Development:	Unity 3D, NavMesh, Raycasting, Physics-based Movement
Tools & Platforms:	Git, GitHub, Figma, Blender, Linux, AWS (Basic)
Concepts:	Data Structures & Algorithms, OOP, Machine Learning (Regression)

EDUCATION

B.Tech in Computer Science and Engineering — UPES, Dehradun CGPA: 7.56 / 10 Specialization: Gaming & Graphics	Jul 2023 – Present
Class XII — Shivalik Gurukul, Ambala Percentage: 78.40%	Apr 2021 – Mar 2022
Class X — Silver Bells Public School, Shamli Percentage: 74.00%	Apr 2018 – Mar 2019

INTERNSHIPS

Marketing Intern — DBR Pvt. Ltd., Noida - Assisted in planning and executing digital marketing campaigns, including social media management, content creation, and audience engagement. - Conducted market research and analyzed campaign performance to optimize strategies and improve brand visibility.	Jun 2025 – Jul 2025
Intern — Hamari Pahachan NGO - Assisted in website development and digital optimisation to increase NGO online visibility and community engagement. - Planned and executed digital content campaigns and supported data organisation and reporting for campaign tracking.	Jun 2024 – Jul 2024

PROJECTS

Lost and Found Management System <i>Tech Stack: Java, Spring Boot, HTML, CSS, JavaScript, SQL</i> - Developed a full-stack web application for students to report, search, and claim lost/found items with secure login, password recovery, and image-upload functionality. - Designed backend REST APIs and relational database schema using Spring Boot for efficient data handling and CRUD operations.	May 2025
Geometry Dash-Style 2D Platformer Game (Unity) <i>Tech Stack: Unity 3D, C#, NavMesh, Raycasting</i> - Built a 2D rhythm-based platformer with multiple player modes (cube, ball, ship, wave, spider), physics-based movement, and gravity-switching mechanics. - Implemented collision detection and raycasting for dynamic obstacle interaction; optimised performance for smooth frame-rate across all modes.	May 2025

CERTIFICATIONS & ACCOMPLISHMENTS

PwC Advisory Launchpad Learning Program Selected for PwC's structured advisory program; gaining exposure to consulting fundamentals, business problem-solving, and data-driven decision-making.	Feb 2026 – Present
